

PARENT QUESTIONNAIRE
2008

Dear Parent,

One purpose of Emerson's admission process is to assist the committee in determining if a partnership between the school and your family would be a happy one. By this stage in the process you have attended an open house or tour which were designed to answer your questions about Emerson. Below are questions we have for you. We ask that you not labor over the questions but answer them as directly and honestly as you can. It is not necessary that both parents respond. Please return this questionnaire with your completed application. Thank you for your time.

1. Describe your child's current school situation.
2. Why do you think Emerson is the right school for your child?
3. Please give an example of a positive interaction between your family and your child's current school.
4. Have there been issues about which your family and your current school did not agree?
If so, please give an example and explain how you resolved it?
5. How do you anticipate supporting the school?
